Hello Vertex Education Employee,

By way of introduction, my name is Joshua Chappell. My intent is to apply for the Director of Marketing at Vertex Education. I feel I have a lot of immediate value I can bring to your organization.

You sell services to schools and school systems. I have spent seven years working inside them. At Charter One I sit with executives to plan enrollment strategy, and my work raised ad click-through rates by over 200% and drove 20x the engagement of standard content. Through Lightbox Digital I helped a large charter school double enrollment in a single year. I have also taught in a charter classroom and produced for one of the largest education marketing agencies in the country. I know what school leaders care about, how they buy, and which proof points move them, because I have been on their side of the table.

I hold a Master's in Marketing with a specialization in Marketing Analytics, and I run campaigns the way this role asks: set the target, measure the result, move the budget toward what works. I also build the customer stories and case studies that make a services brand credible, which is the work I do every week.

I appreciate that you value diverse thinkers, team players, and smart risk takers who make a difference through education; these are all values that I strive to emulate.

Thank you for taking the time out of your busy day to read my letter. I look forward to the opportunity of doing an interview with you.

Sincerely,
Joshua Chappell
