Hello Muck Rack Employee,

By way of introduction, my name is Joshua Chappell. My intent is to apply for the Social Media Manager position at Muck Rack. I feel I have a lot of immediate value I can bring to your organization.

Your posting asks for someone creative, organized and metrics-driven, with experience in video production, scripting and editing. Video is the core of my work. At Charter One I created and led a social media content initiative that drove more than 20x the engagement of standard content, and I led video initiatives that drove paid and organic engagement by over 100%. At Grand Canyon Education I scripted original organic content with the marketing team and delivered 200+ videos over two years reaching millions on TV, paid social, and organic channels. I script, shoot, and edit in-house, so your social calendar does not wait on an outside crew.

On the paid side, I generated leads with Facebook ads for my own company and integrated on-site call-to-action elements with the Facebook pixel to monitor ad performance. At Charter One I created and led a video initiative that raised click-through rates for running ads by over 200%. I hold a Master's in Marketing with a Marketing Analytics specialization. You also ask for AI tools in day-to-day work: I used Claude agentic coding to build content workflows that cut production times in half. Your customers are PR and communications professionals. At the Arizona State Legislature I synchronized with Communications teams across legislative bodies and chambers, so I have worked alongside the people your platform serves.

Thank you for taking the time out of your busy day to read my letter. I look forward to the opportunity of doing an interview with you.

Sincerely,
Joshua Chappell
