Hello HH Global Employee,

By way of introduction, my name is Joshua Chappell. My intent is to apply for the Creative Operations Manager position at HH Global. I feel I have a lot of immediate value I can bring to your organization.

Your posting puts AI tool rollout and automation at the center of this role. That is the work I do every day. At Charter One I used Claude agentic coding to develop content workflows that cut production times in half while keeping stories authentic. At Lightbox Digital I slashed creative production times by 30% with AI tools and built a complete AI video workflow in Google Veo, Kling, and Midjourney. You get someone who can put new tools in front of a creative team, prove the time savings, and keep the quality bar where the client expects it.

The operations side is familiar ground. I have delivered 98% of projects on time and 92% within budget while commanding crews of 5 to 20 people. I maintained an organized library of video assets in Frame.io and Dropbox, reducing search and retrieval time by over 50%, which is the same discipline a DAM system needs. At Grand Canyon Education, one of the largest marketing agencies in the country, I delivered 200+ videos over two years reaching millions on TV, paid social, and organic channels, and crystallized scope of work so cross-department stakeholder goals were met and exceeded. I manage projects in Wrike, Notion, and Google Workspace, and my post-production runs on Adobe Creative Cloud.

Thank you for taking the time out of your busy day to read my letter. I look forward to the opportunity of doing an interview with you.

Sincerely,
Joshua Chappell
