Hello Flock Safety Employee,

By way of introduction, my name is Joshua Chappell. My intent is to apply for the Senior Video Editor position at Flock Safety. I feel I have a lot of immediate value I can bring to your organization.

Your posting describes two modes and says both matter. I work in both. On the documentary side, I edit cinematic brand stories and customer interviews, building narrative arcs out of unscripted footage. One of them follows a bath remodel company and how they care for veterans, which is the kind of restraint-first story your posting describes. On the social side, I created and led a social content initiative that earned more than 20x the engagement of standard content, and a video initiative that raised click-through rates for running ads by over 200%. I own the whole post stack: pacing, log grading in DaVinci Resolve, audio in Audition, motion graphics in After Effects, and an asset library in Frame.io that cut retrieval time over 50%. At the Arizona Legislature I rebuilt the grading pipeline to run 3x faster under daily deadline. I use Runway and other AI tools where they speed the work without flattening it. Being the first dedicated editor on a team is familiar ground, because I have built the library, the process, and the standard from nothing before.

I appreciate that you value diverse perspectives working together with mutual respect, and building technology that keeps communities safe; these are all values that I strive to emulate.

Willing to relocate.

Thank you for taking the time out of your busy day to read my letter. I look forward to the opportunity of doing an interview with you.

Sincerely,
Joshua Chappell
